

# WHITE FLINT WEST TRANSPORTATION

## NOTICE OF NIGHTTIME CONSTRUCTION

Montgomery County Department of Transportation is pleased to announce the progression of the *White Flint West Transportation Improvements* project. The initial stage consisting of WSSC utility relocations will begin in November 2019 and last for about six months. To minimize pedestrian and motorist impacts, some of the work will be completed at night. The night lane closures are from Sunday through Thursday 9:00 pm to 5:00 am. To minimize nighttime noise, we will use *white noise* back up alarms on construction equipment and vehicles, and noise reduction equipment on generators, pumps, and compressors.

Corman Kokosing Construction Company of Annapolis Junction, MD is the general contractor responsible for construction. Please contact the onsite construction contacts below regarding issues and/or concerns so they get addressed immediately.

WSSC utility relocations are tentatively scheduled on or about the following dates:

DATES (EST.)	STREETS	FROM   TO
Nov. 8, 2019 to April 30, 2020	Old Georgetown	Tilden Lane to Rockville Pike
	Executive Blvd.	Montrose Parkway to Old Georgetown Road

### SAFETY FIRST!

Please proceed with caution when driving or walking through the work areas.
